

Maryem Mostafa

FRONT END DEVELOPER

Al Shrouk, Cairo, Egypt | +201030482371 | [LinkedIn] | [GitHub]: [mmmzxe](#) | Portfolio | [Email]: maryem.mostafa00@gmail.com

Summary

Front-end developer and technical trainer with 2+ years of experience delivering 15+ projects using React.js, Next.js, React Native, and Node.js, achieving performance improvements of up to 75% in page speed and user engagement. Experienced in full-stack and mobile development using Next.js, React Native, and Node.js, with backend API and database integration. Led technical teams to build innovative solutions, including a Next.js movie app that reduced server response time by 40% and a React.js education platform that improved navigation efficiency by 50%.

Work Experience

Full Stack & Mobile Developer | Your Parts (Feb 2026 – Present)

- Developing full-stack web and mobile applications using Next.js for front-end development and React Native for mobile applications.
- Working across backend services, APIs, and database integration as part of full-stack application development.

Front-End Developer | Rar-It Development (June 2025 – Jan 2026)

- Developed and implemented **SaaS dashboard solutions** for restaurant management, including real-time order tracking, staff management, and analytics dashboards using **React.js, TailwindCSS, and REST APIs**.
- Contributed to the **Empowerment Project** for the Syrian Ministry, building user-friendly interfaces to enhance accessibility and streamline administrative processes.

Front-End Instructor | Black Horse Courses (December 2024 – Present)

- Trained 4+ groups (15-20 trainees per cohort) on front-end development fundamentals using **HTML/CSS, JavaScript, and React.js**.
 - Designed interactive, project-focused curricula, such as building full-stack web applications from scratch, contributing to an **85% success rate** in final assessments.
 - Received **4.7/5 trainee evaluations** for clear teaching methods and hands-on technical support during project development.
 - Developed job-market-aligned training content emphasizing **web standards compliance and SEO best practices**.

Front-End Developer | NOT FOUND Agency (Dec 2024 – May 2025)

- Led end-to-end development of **8 projects** (e-commerce, booking system, educational platform), boosting company revenue by **70%** with React.js and Chart.js.
- Constructed a real-time social media analytics dashboard, improving client satisfaction by **40%** through actionable insights.
- Accelerated project delivery by **25%** via reusable components and Agile workflows.

WhereTech | Front-End Developer (Jan 2024 – Jul 2024)

- Launched fitness content platforms with React.js and Tailwind CSS, improving page load speed by **30%** and mobile engagement by **75%**.
- Modernized legacy code to React architecture, reducing server costs by **15%** and enhancing scalability.

Freelance | Front-End Developer (Jan 2023 – Present)

- **Kengster Movies:**
 - o **Engineered** a Next.js movie app using TMDB API, slashing API latency by **40%** via Redis caching and achieving a **95% Lighthouse performance score**. (Jan 2023 – Apr 2023)
 - o **Integrated** 3+ third-party APIs (country/channel data) to enable region-specific content filtering, boosting beta user retention by **25%**.
 - o **Implemented** secure authentication (login/register) with Express.js, cutting unauthorized access incidents by **90%** and enhancing data security.
- **MFEI E-Learning Platform:** 
 - o **Architected** a secure JWT-based system with role-based access (admin, Imam, users), reducing unauthorized logins by **90%**.
 - o **Automated** Athan time displays using Prayer Times API, increasing user engagement by **40%** through location-based scheduling.
 - o **Pioneered** a CMS-like interface for Imams to publish fatwas, driving platform interaction up by **60%**.
 - o **Streamlined** registration for over 500 events with **reusable** registration forms and Stripe payment integration, increasing donations by 35%.
 - o **Designed** a reusable form component for event registrations, cutting development time for new events by **50%**.
 - o **Crafted** responsive pages (React.js + Tailwind CSS) for mosque information, slashing bounce rates by **25%**. (Jun 2023 – Sep 2023)
- **Helwan University Gymnastics Portal:**

o **Launched** a React.js training platform with **45% faster exercise load times**, enabling **78% of students** to pass practical exams.

o **Introduced** real-time progress tracking, reducing instructor feedback time by **30%**. *(Oct 2023 – Dec 2023)*

- **E-commerce Clothing Store | Full-Stack** 
 - Developed a responsive full-stack e-commerce platform using **React.js, Node.js, Express.js, and MongoDB**, delivering a seamless shopping experience across desktop and mobile devices.
 - Implemented **product browsing, category filtering, search, shopping cart, user authentication, checkout, and order management** features.
 - Built and integrated **RESTful APIs** for product, user, cart, and order management, with secure data handling and efficient client-server communication.
 - Designed reusable and scalable **React components** and managed application state to improve maintainability and development efficiency.
 - Integrated a responsive UI with optimized layouts and interactions, improving **usability, performance, and overall user experience**.
 - Implemented backend validation, authentication, and database operations using **Node.js, Express.js, and MongoDB**.

Education

Future Academy | Management Information System

- **Graduation Project:** Special Needs Car (SNC) App – **Grade: A+** *(Aug 2020 – Jul 2024)*
- **GPA:** 3.5 | Relevant Coursework: Advanced Web Development, Database Systems *(Completed: May 2024)*

Skills & abilities

- **Frontend Development:** HTML, CSS, JavaScript, React.js, Next.js, React Native, Tailwind, Bootstrap, jQuery
- **Full Stack & Backend:** Backend Development, Node.js, REST APIs, SQL, MySQL, database integration
- **Tools:** Microsoft Office, WordPress, Odoo, Visual Basic
- **Business Skills:** SWOT Analysis, Business Administration

Projects

Projects - Jewelry store (React JS, Tailwind CSS & Nodejs) 

Leadership & Certifications

Front-End Team Lead: Pioneers 180, Tech Geeks Club, GDG Cairo

- IT Specialist (Database) (May 2024)
- Google DSC Flutter Development (Mar 2023)
- Entrepreneurship and Small Business (Mar 2023)
